Telegram: @Jedenkoor
Portfolio: https://jedenkoor.ru
GitHub: https://github.com/jedenkoor

Senior Frontend Developer with 7+ years of experience building scalable SPA and SSR applications using Vue, Nuxt, React, and TypeScript.

Experienced in developing complex user interfaces, designing maintainable frontend architectures, improving application performance, and delivering high-quality products in collaboration with backend developers, designers, and product teams.

Interested in frontend architecture, performance optimization, developer experience, technical leadership, and building scalable systems with long-term product value.

## Professional Experience

**Leadgid** International CPA platform
**Projects:** https://cpa.leadgid.ru/ • https://formula.leadgid.ru/ • https://money.leadgid.ru/
2021 – 2026
St. Petersburg, Russia

- Built an SSR application using Nuxt 3 + TypeScript with hybrid rendering and SEO optimization, increasing organic traffic by approximately 50%.
- Developed and maintained an internal SPA application using React + TypeScript, implementing new features with TanStack Query, React Hook Form, Zod, Zustand, and Jest, improving development speed and application stability.
- Migrated a large-scale application from Nuxt 2 to Nuxt 3, improving Core Web Vitals, reducing bundle size, and increasing Google PageSpeed score from 30 to 84.
- Developed interactive user interfaces with Three.js and integrated AI-powered development tools (Cursor, Claude, GitHub Copilot), reducing repetitive development tasks by approximately 30% (self-estimated).

**Growth Point** startup web studio
**Projects:** https://levitacia.co/ • https://tmvo.ru/
2021
St. Petersburg, Russia

- Developed and maintained 5+ SPA and SSR applications using Vue 2 and Nuxt 2 for commercial projects.
- Implemented 20+ user-facing features and business scenarios including forms, catalogs, dashboards, and dynamic interfaces integrated with REST APIs.
- Improved frontend architecture by organizing component structures, reusable modules, and shared UI solutions.
- Configured and maintained frontend development tooling, including Webpack, ESLint, Prettier, and Git workflows.

**RA-Studio** digital agency
**Projects:** https://clevergrad.ru/ • https://parusa-group.ru/ • https://finnkoti.ru/
2018 - 2021
St. Petersburg, Russia

- Developed and maintained 20+ commercial websites and web applications, including corporate websites, online stores, and customer-facing services.
- Created 30+ responsive pages and UI components optimized for modern browsers and mobile devices.
- Integrated frontend solutions with Bitrix and ModX CMS, developing templates, components, and dynamic content blocks.
- Developed interfaces using JavaScript, jQuery, HTML5, CSS3, and SCSS, ensuring cross-browser compatibility and consistent user experience.

## Education

**Saint Petersburg Electrotechnical University "LETI"**
Bachelor's Degree — Computer Security

2014 - 2020
St. Petersburg, Russia

## Languages

Russian — Native
English — B2 (Upper-Intermediate)

## Technical Skills

**Frontend Development**
Vue 2 • Vue 3 • Nuxt 2 • Nuxt 3 • React • Next.js • TypeScript • JavaScript (ES6+) • HTML5 • CSS3 • SCSS • Responsive, Cross-browser, and Accessible Web Development

**State Management & Data Handling**
Pinia • Vuex • Zustand • TanStack Query • React Hook Form • Zod • REST API

**Performance & Code Quality**
SSR • SEO Optimization • Core Web Vitals • Web Performance Optimization • Bundle Optimization • Jest • ESLint • Prettier

**Tools & Infrastructure**
Vite • Webpack • Gulp • Docker • Git • Linux • CI/CD Basics

**AI Development Tools**
Cursor • Claude • GitHub Copilot

**Collaboration & Engineering Practices**
Agile • Scrum • Code Review • Cross-functional Collaboration • Mentoring
